Awards and honors: Cum Laude, Dean's List, President's List

BRAINSTATION
Full-stack development bootcamp.   June, 2022 – August, 2022

Experience

SHERCO USA | Web Developer   San Antonio, TX | Feb. 2023 - Present
- Improved multiple eCommerce sites by implementing SEO, loyalty rewards, and digital commerce integrations. Resulted in higher monthly visits, 1% increase in customer conversion, and higher Google/Bing Search results. Customized sites and implemented new features via HTML, CSS, JS, and API integrations. Created a custom API utilizing Express.js and BigCommerce's API that allowed for B2B sales.

COMPLETE CHESS | Web Developer   San Antonio, TX | Dec. 2022 – Mar. 2023
- Maintained, updated, and improved multiple websites for a local San Antonio Chess Club and non-profit utilizing WordPress; hosted on WP Engine. Created a secure email system used for notifications and customer support through Google Cloud services that linked with MailChimp. Provided digital marketing solutions resulting in increased weekly views.

POTLUCK HOSPITALITY | Farmer's Market Facilitator   San Antonio, TX | June 2022 - Present
- Performed a variety of physical labor tasks with other facilitators (lifting 50+ pounds without assistance) in specific time-windows to ensure efficiency of a market. Maintained inventory for retail sales and promoted company branding through face-to-face customer service/support. Communicated customer feedback, requests, and complaints effectively to management team.

ALAMO AREA COUNCIL OF GOVERNMENTS | IDD Coordinator   San Antonio, TX | Oct. 2020 – June 2022
- Demonstrated superb communication skills by working with over 50 customers with disabilities and their families consistently. Documented encounters and PHI/Medical Records using Microsoft Office while logging in company database, resulting in 150+ datapoints monthly. Demonstrated problem-solving and crisis-identification skills by assessing customer's living environments to ensure fair treatment. Connected customers with Medicaid resources available to them based on their disabilities. Provided training to new team members on CMS platform.

Projects

PERSONAL SITE
Web Developer   https://tinyurl.com/jakob-luter
- Designed and built a responsive, static website entirely in React. Coded entirely in front-end using HTML, Sass, and TypeScript. Designed for self-marketing as a Full-Stack developer looking for work. Launched using Amazon Simple Storage Service (S3).

POLLUTION PULL
Full-Stack Developer   Application | Server
- Created a responsive web application in React and Node meant to increase clime awareness by visualizing a user's carbon footprint. This app consumes REST API's, utilizes React add-ons such as graphing libraries, and creates a custom server for handling user inputs. Developed in under three days as part of a final project for Brainstation's full stack development bootcamp.
